

# Announcing a brand new feature ONLY on a Big Country

Used exclusively in:

*Big Country*  
BY HEARTLAND

## Wireless Remote Control system

**This handheld key fob is a SECONDARY control system for electric awning, front and rear jacks, slideouts, and the exterior scare light.** (Secondary means that there are still switches located inside the coach to control these items)

### How to use:

**1 – push power button in upper right hand corner.**

**2 – press and hold the SEL button and up arrow button at the same time to unlock device** (this is a safety feature so buttons are not pushed accidentally)

**3 – press the SEL button to scroll through available controlled systems**

**4 – use the up or down arrows to control system once system name appears**

**\*\*\*The exterior scare lights are controlled with the light button, located on top, third from the right.\*\*\***

### Benefits:

**1- EASY TO USE – control these features without having to stand and wait at the switch.**

**2- QUICKER – You have a huge range to accomplish other tasks when setting or breaking camp.**

**3 – Safer – watch the slides from all angles, roll up that awning in the wind!**
